YOUR SPECIALIST *Summer* SOLUTIONS TEAM

SLD Pumps and Power is one of the leading suppliers of pump and generator rental equipment in the UK. We provide effective pump and generator rental solutions 24/7, 365days a year.

Our extensive range of rental products and services includes:

- **DIESEL PUMPS**
- **ELECTRIC SUBMERSIBLES**
- **HYDRAULIC SUBMERSIBLES**
- **SPECIALIST HIGH HEADS**
- **AIR DRIVEN PUMPS**
- **WELLPOINT DEWATERING**
- **GENERATORS**
- **FUEL MANAGEMENT SERVICE**
- **EXTENSIVE ANCILLARY RANGE**
- **NATIONAL ACCOUNT MANAGEMENT**

Just because the weather is warmer and there's less chance of rainfall and flooding, doesn't mean you can't be left high and dry with your pump and power equipment.

APPLICATIONS	DESCRIPTION	SLD EQUIPMENT
 RAW POTABLE WATER TRANSFER	Over pumping of rivers into reservoirs and canals for Utility Companies.	– HL200 – HL160
 AGRICULTURAL	Irrigation pumping from rivers/streams into fields for farmers.	– HL125 – HL80
 DUST SUPPRESSION	Large Construction/Aggregate/Landfill sites will require systems to suppress dust.	– HL125 – HL 80
 AERATION	To keep the fish alive, fish farms will require to put air into the water where the fish are kept.	– CD150
 WELLPOINTING	One way to supply water to drought hit areas is to dewater from under ground water table.	– IMPULSE – CD100MV

YOUR SUMMER HIRE *Support*

**In addition to your Pump and Power solutions,
SLD also provides the following support services:**

Contingency Planning

With the increasing unpredictability of our weather contingency planning is becoming more and more prevalent. SLD Pumps and Power operates an emergency 24/7 rental service, 365 days a year, providing immediate response and fast nationwide delivery.

We can offer short, medium and long term rental contracts to suit the needs and demands of your business, minimising capital expenditure.

Sales
